

Environmental Policy

Temtrol Technologies Pty Ltd actively seeks to minimise and manage the environmental impact of its operations. We are committed to protecting the environment through appropriate planning, training and execution of work practices. We will strive to minimise pollution and waste through efficient use of resources.

Our Goals:

- Establish an environmental management system that is appropriate to our business
- Improve resource consumption efficiency and minimise waste generation in our operations
- Build our workforce's awareness of environmental issues relating to our operations
- Continue to comply with client environmental policies

Our Commitment:

To achieve our goals, Temtrol Technologies Pty Ltd will:

- Monitor and comply with relevant environmental laws and relevant standards and practices
- Consult and co-operate with employees, customers and other relevant third parties
- Set and review environmental objectives and targets
- Monitor and review our environmental progress
- Continue to improve our environmental management system and environmental performance
